Security and privacy-focused
decentralized storage and
communications platform

A group of people are gathered around a table in a large room with arched windows. In the foreground, a yellow sign is placed on the table. The sign lists the name 'Maidsafe' and three names: Nick Lambert, Gabriel Viganotti, and Francis Brunelle. Below these names, it says 'Security and privacy focused blockchain development community platform'. Several people are standing around the table, looking at the sign or talking to each other. The background shows a large hall with arched windows and other people in the distance.

Gnosis

Kei Kreutler

*And so it is, the future is a dream
that we live in, and we are all
dreaming it. The future is a dream
that we live in, and we are all
dreaming it.*

Gnosis

Kei Kreutler

Beobachtet die Form. Die Form ist nicht nur ein Objekt, sondern ein Prozess. Sie ist ein Prozess, der sich in der Zeit entfaltet. Sie ist ein Prozess, der sich in der Zeit entfaltet. Sie ist ein Prozess, der sich in der Zeit entfaltet.

Harde

Gnosis

Kei Kreutler

Based on the Hebrew Bible, Gnosis is a collection of cards that explore the lives and experiences of the people of Israel, from the time of the Exodus to the present day.

Wendy

SES:Secure ECMAScript

Brian Warner

Let's talk about your favorite SES
extension: safe, modular, and
uncompromised. SES is a JavaScript
library that makes it possible to
run JavaScript in a secure environment
with no need for a virtual machine.

SES:Secure ECMAScript

Brian Warner

Let's build the next best SES
platform to do as much as all
existing JavaScript source code
in existing systems programs
can do, but without being too
slow to do it.

SES:Secure ECMAScript

Brian Warner

Let us help you get the most out of your JavaScript code with the power of the ECMAScript 5.1 specification. SES is a JavaScript library that provides a secure execution environment for your code. It is designed to be used in conjunction with the SES:Secure ECMAScript specification.
